

Problem

Unverified information on the car, which leads to the lack of trust and deceptions in the automotive industry

Solution

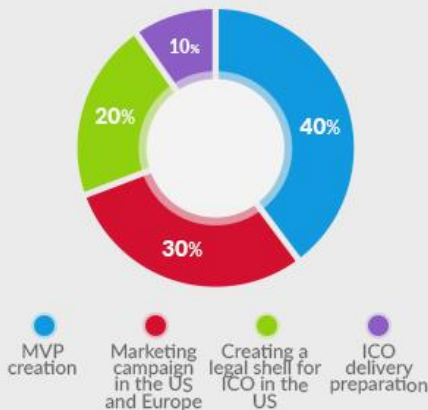

Creating a decentralized, transparent blockchain database that records all information pertaining to vehicles.

How does it work between us and users

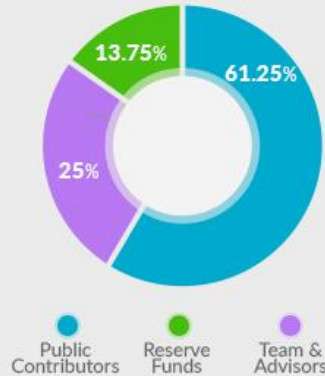

Our goal is to change the global market of used cars by making it honest and reliable and with equal access to information for each participant

Distribution of funds collected during pre-ICO

Token Distribution

Road Map

Vinchain team

Our team consists of experienced professionals who has been shown an excellent work and are really enthusiastic about our project

Token Sale

22th March 2018
14:00 UTC

15th April 2018
14:00 UTC
